9. ¿Quién...?

## INSTRUCTIONS:

Teachers! Tired of one-word answers?!? “¡ 5 Por Día” to the rescue! “¡ 5 Por Día” (primary/junior edition) is a new and innovative approach that will have your students communicating like never before! Its formulation is based on the simple theory that when students learn how to orally respond in complete sentences, practising on a daily basis, they are more successful and able to respond in written form. “¡ 5 Por Día”’s question worksheets may be used in a variety of ways to enhance both the oral and written skills of primary and junior Spanish students.

Setting up a fun and stimulating 5 minute daily questioning routine in your classroom is possible with “¡ 5 Por Día” (primary/junior edition)! Whether this established routine is done in written and/or in oral form, both will prove beneficial. Included in this package are 18 worksheets based on the 9 most frequently used interrogatives. There are also 24 month-titled question sheets. Themes are meant to appeal to the interest levels of primary and junior-aged students.
